Verderair VA25 (HE) metallic

Description

The VA25 (HE) metallic double diaphragm pumps are excellent pumps for use in a wide range of applications across many industries. Those pumps are using the modern technology to make them the most effcient on the market! The air section is available in aluminium or plastic, the pump body in 3 different materials and there are 9 different materials available for the diaphragms. This makes it possible to select the best solution for your application.

Your benefits

- → Energy efficient
- → Less downtime
- -> Easy to install, operate and maintain
- → Ant-ice muffler
- → Free of air lubrication
- → Non-stalling air valve
- → Can run-dry without damage
- → Dry self-priming
