VA50 non-metallic

VERDERAIR®

Description

The VA50 non-metallic double diaphragm pumps are excellent pumps for use in a wide range of applications across many industries. The reliability of those pumps and especially the air valves, have been proven in many industries since many years. The pumps are available in 3 different materials for the pump body and 7 different materials for the diaphragms. This makes it possible to select the best solution for your application.

Your benefits

- Easy to install, operate and maintain
- Less downtime
- Free of air lubrication
- Non-stalling air valve
- Can run-dry without damage
- Dry self-priming
